THE OFFICE CHAIR

ONE OF THE MOST IMPORTANT COMPONENTS OF A PROPER WORKSTATION IS THE OFFICE CHAIR!

The type of work being performed in the office often dictates what kind of chair is required. The size of the person doing the work might also affect the proper choice. This guideline is intended for most users, but accomodating the extremes in a person's height, weight, physical disability, etc., is a fact of life and must be part of the planning process.

- The chair should have a seat back with lumbar support capable of both up-and-down and front-and-back adjustment. The seat back should provide support to both the lower back and the shoulders and enable the person to sit comfortably upright without slouching
- To accomodate the height of the user, the chair height with respect to the floor should be adjustable
- The seat pan should be capable of tilting and it should have a contoured or waterfall front
- Hip angle: 90°-120°
- Knee angle: 90°-130°
- Ankle angle: 100°-120°
- The front edge of the seat should curve away and down from the back of the person's legs to promote circulation in the lower legs. Tilting transfers weight from your hips to your legs, encouraging normal back curve and reducing pressure on the discs in the lower spine
- The seat pan and backrest should be upholstered and cloth covered with a fabric that is breathable . Seat padding should not compress more than one inch when an individual is seated
- The height of the armrests needs to be adjustable with respect to the seat pan. Adjustable height arm rests relieve tension in the upper back, neck, and shoulders, by allowing the user's arms and wrists to be in parallel position. They also provide resting planes
- To accomodate the breadth of the user's lower torso, the office chair armrests should be capable of in and out adjustment and that adjustment needs to be independent of the seat pan
- The chair should be capable of swiveling at least 360°
- To prevent the possibility of tipping, the chair should have five casters. The type of casters depends on the flooring material. Use hard casters for carpeted floors. Use soft casters for hard wood vinyl or when used on chair mats
- Look for chairs with a built-in tilt tension mechanism that controls the rate and ease with which the chair reclines to different weights and strengths of the user. This allows the user freedom to rock/shift in the chair, while not disturbing the original ergonomic settings

1405 & 1410 PREMIUM SERIES CHAIRS

Offers all you require in a task and operator chair. From molded foam cushions to "one touch" ergonomic chair controls.

- Gas lift height adjustment
- Back height and depth adjustment
- Seat and back angle adjustment on 1410 Series
- Optional arms and stool kit available
- Dual wheel carpet casters

AVOID DEBILITATING ERGONOMIC INJURIES

KEYBOARD / MOUSE PLATFORM(S)

- The goal is to have the hands and wrists remain in a neutral position during typing and prevent over-reaching when using the mouse. An under-the-desk articulating keyboard / mouse platform is an essential component of the concept of total adjustability.
- The platform should rotate 360 degrees. It should be adjustable up to 6 inches in height, tilt from –10 degrees to + 15 degrees, and extend 2 inches out from the desk or return. The platform should have a non-skid surface. The platform should have an adjustable wrist rest.
- Having the mouse in close proximity to the keyboard is very important. Repeated or prolonged over-reaching or hyperextending for a mouse can place a stress on the shoulder and ultimately result in tendonitis, inflammation, etc. This frequently happens when a conventional keyboard tray is used without a mouse tray. The keyboard tray requires that one sit farther back from the work surface; this requires one to lift their arm up and out to use the mouse. Ideally, the mouse platform should be an integral part of the keyboard platform.

KEYBOARD AND MOUSE PLACEMENT

- Place the keyboard and mouse directly in front of and close to you.
- Adjust the keyboard as low as possible, but with adequate leg room.
- Adjust the slope of the keyboard so that your wrists are straight. They should not extend downward or upward while typing.
- Type with your hands and wrists floating above the keyboard, using the wrist pads only to rest your wrists while typing. Studies have shown that office workers tend to relax their arms against the wrist rest while using the computer. It is important to avoid doing so, as using the wrist rests to support the arms often isolates movements from your wrist down to your fingers, which can cause problems.
- Avoid resting your wrist on sharp objects (e.g., desk edge).

KL-28S ECONOMY KEYBOARD DRAWERS

- Laminate with 3-mil PVC edging (28" x 11.75")
- Fixed height, 16" ball bearing slides
- Keyboard and mouse on same level
- Mouse-friendly surface
- Suitable for right or left handed users
- Low profile platform maximizes knee clearance
- Meets or exceeds BIFMA standards

PERSONNEL GROUNDING PRODUCTS

TABLE MAT KITS

- Vinyl static dissipative table mats drain static charges to protect static sensitive materials such as electronics, computers and instruments
- A three-layer construction provides excellent electrical properties
- Top layer is a tough dissipative vinyl, the centre layer has a highly conductive metal scrim and the bottom layer is dissipative foam, which provides a great cushion and will not slip
- Kit includes 15' common point ground, which attaches to a wrist strap
- Surface resistivity: 10^7 – 10^8 ohms/sq.

ARSTAT™

FLOOR MAT KITS

- Conductive rubber floor mats are designed to drain static charges to the ground, using a path created from a conductive surface
- Resists solder, fluxes and most acids used in an electronic production area
- Kit includes 10' mat ground cord and heel grounder
- Surface resistivity: 10^6 – 10^8 ohms/sq.

OD992	Floor Mat Kits	24 x 48	167.26

ARSTAT 5000 SERIES WRIST STRAPS

- Premium performance wrist straps uses a silver-plated monofilament, continuous thread throughout the nylon band, which establishes a 360˚ conductive path to maintain reliable continuity
- Stainless steel back plate ensures skin contact
- Available with a 6' or 10' cord, complete with 1 megohm resistor

ARSTAT™

Model No.	Description	Price /Each
OE841	With 6' Coil Cord	13.01
OE842	With 10' Coil Cord	15.02

HEEL & TOE GROUNDERS

- Disposable heel grounder is made from black polyethylene with adhesive attachments
- Designed to discharge static from a person to a grounded walking surface
- Reusable heel and toe grounders feature built-in resistor for safety

OE840

OE839

ARSTAT™

Model No.	Description	Price /Each
OE839	Toe Grounder with Resistor	20.05
OE840	Heel Grounder with Resistor	13.01

ELASTIC ADJUSTABLE WRIST STRAPS

- Extra wide, soft elastic band for increased wearer comfort
- Has silver impregnated nylon knitted on inside for superior conductivity that reliably removes generated static charges
- Adjustable, may be fitted to almost all people
- Locking clasp locks band so it will not slip
- Non-shedding, non-sloughing band material that is cleanroom compatible; safe for micro-electronics
- UL Listed
- Circumference - 2.5" - 13"

NOTE: All bands have a 4 mm snap stud.
Complete wrist strap kits include an alligator clip

Model No.	Description	Price /Each
OD974	Band Only	13.94
OD975	Band w/6' Coil Cord	37.11

STATIC DISSIPATIVE ANTI-FATIGUE NO. 791

QUICKLY DRAINS STATIC ELECTRICITY FROM WORKERS

- Frequently used in commercial areas where static discharge can harm products or equipment
- Excellent resistivity: RTG 1 x 10^7 ohms
- Super resilient *Nitricell*® sponge base provides long-term comfort and relieves employee fatigue
- Easy-to-clean vinyl surface and safety bevelled edges
- Each mat has a one mega ohm snap and must be grounded
- Workers must be wearing conductive shoes or heel grounders **(SAL252)** to allow the mats to function
- 1/2" thick
- Colour: Grey

3-YEAR WARRANTY

WEARWELL®

Grounding snap is attached to lower left hand corner of each mat

HEEL GROUNDER NO. 793HG

- The heel grounder allows static electricity to pass from the worker to the ESD matting or flooring
- One size fits all and the velcro loop allows for easy attachment
- Allow the fabric strip to touch the workers skin for best performance
- One megohm resistor
- 0.060" thick

WEARWELL®

Model No.	Price /Each
SAL252	16.70

STAT-FREE WORK SURFACE MATS

- Very functional, effective solution in areas where static control is imperative
- Designed for workbenches and desks, underneath computers and at workstations where sensitive components are packaged or repaired
- Flexible, three-layer construction has a conductive scrim sandwiched between two layers of vinyl
- Provides excellent electrical properties
- For maximum effectiveness, ground the mat using **SAR851** and ground the worker with **SAR852**
- Colour: Blue

ESD TRAYS

- Trays provide conductive and shielding protection for use in electronics manufacturing
- Resistant to abrasion and chemicals
- Easy to clean with steam or water (temperature range: -60˚F to 250˚F)
- Trays are permanently dissipative and are unaffected by washing

ESD DIVIDER BOXES

Dividable, conveyable boxes are available in conductive material (black). All containers can be divided into compartments by length and/or width. Dividers are on 1.25" centres.

CONDUCTIVE BINS

Black, carbon-filled, injection moulded polypropylene copolymer resin. These containers provide conductive and shielding protection for use in electronics manufacturing. Provides a *Faraday* cage for parts when container is covered. Unaffected by humidity. Permanently conductive. Static decay rate of <0.10 seconds at +5 kv applied charge.

10^5 ohms per square resistivity.

OPTICO® PROFESSIONAL CLEANING WIPES

- Individually wrapped, pre-moistened, quick drying anti-static formula easily removes fingerprints, dust, dirt, germs and other grime
- Ideal for cleaning of critical optical and electronic surfaces such as prescription, performance and protective eyewear, specialty lenses, LCD, plasma and interactive touch-screens, smart phones, and other hand held devices
- Made with Dupont Sontara aerospace grade non-woven fabric
- Professional grade, Canadian made, quality guaranteed

AVAILABLE IN:
ON587 Small 5 1/4" x 3 1/2"
ON588 Medium 6" x 7 1/4"
ON589 Large 12" x 13". Ideal for multiple or large optical and electronic surfaces: LCD, plasma and interactive touch-screens, smart phones, interactive whiteboards, etc. (one wipe will clean an entire call center of screens)

GRAND PRIX LINE

UL LISTED SAFES
Keep documents intact for one full hour despite exterior temperatures as high as 927°C (1700°F).

F.O.B. Saint-Jérôme, Quebec.

Features include:
- Heavy gauge satin coat steel with anti-rust treatment
- Insulated with moisture pockets between the walls
- Heavy-duty hinges
- 6" continuous fixed locking bar
- Key changing combination lock
- Adjustable shelves
- Heavy-duty caster base

LEDGER SAFE
Full size ledger safe ensures document security despite ambient temperatures reaching 1000°C (1850°F) for a full two hours.

F.O.B. Saint-Jérôme, Quebec.

Features include:
- Three heavy-duty hinges
- Three adjustable shelves
- Key changing combination lock
- Caster base

DOUBLE KEY FILE/SECURITY SYSTEMS

- Sturdy, welded steel with piano-hinged door and key panels
- Heavy-duty, 20-gauge steel body and 18-gauge steel door
- Mount cabinet on wall (mounting screws included), or use on table or shelf
- Cabinet includes a disc-tumbler lock with two keys
- Includes: red octagon key tags (model **OG894**) and white oval key tags (model **OG895**) same amount as key capacity, cross reference key guide, key loan record sheet, key receipt slip, brass key receipt holders and key collection envelopes
- The double key system insures proper security and avoids key loss
- How it works: the master key is fastened to the red tag and filed permanently on a labelled hook; duplicate keys are fastened to white tags on the same hook; each key is indexed in three ways: by hook number, alphabetically by what the key opens and numerically
- When a key leaves the system, a receipt tag is filled out and hung with the master key and all loans are recorded in the key loan record sheet

PT1650 CUSTOMIZABLE INDUSTRIAL HANDHELD LABELING SYSTEMS

brother at your side

Durable and rugged handheld labeler uses new flexible ID tape and rotated print for cable wrapping and flagging, industrial strength laminated tapes for patch panel labeling and standard laminated tapes for faceplate labeling.

Memory functions to store frequently used label designs, easy entry keyboard and large display for quick editing. Auto sizing, sequential numbering, repeat printing, and vertical style for quick labeling. Auto power off feature helps to save battery life.

FEATURES

- Portable and rugged design
- Download custom templates (with a database), and graphics to internal, non-volatile memory
- Prints labels from 6 mm to 24 mm wide
- Built-in telecom/datacom templates - wire/cables, patch panels, faceplates
- Makes rotated, vertical and horizontal labels
- Prints industry-standard bar codes
- Uses easy-swap interchangeable TZe tape cassettes
- Includes: Extra strength and flexible ID TZe tapes, tape separator, batteries, rubber impact guards and carry case

IDEAL FOR:

- Telecom/Cabling
- Asset Management
- Property Management
- Manufacturing
- General office

Model No. ON547
Price/Each $250.00

R33890E

FOLDING OFFICE CARTS

- Sturdy steel cart has two shelves, folds away when not needed, and quickly sets up for use
- Top shelf is 26" W x 15" D, lower shelf is 22" W x 15" D with a 1/4" rim
- Can be used as a beverage cart
- For compact storage, simply fold top and bottom shelves up, legs in, then fold top down
- Mobile on four 3" diameter dual wheel casters (two locking)
- Capacity: 30 lbs. per shelf

Model No. OK023
Price/Each $223.15

MOBILE REFRESHMENT CENTRES

- Ample storage capability for your day-to-day break room supplies
- Easily move the cabinet wherever it is needed in the office on four 2" swivel casters (2 locking)
- Wood laminate construction, double-door design with a fixed interior and storage shelf, a large heat-resistant counter top with a 1 1/4" raised lip to catch spills
- Work surface (top) dimensions: 21 1/2" W x 17" D
- Finished product dimensions: 23" W x 18" D x 31" H
- Shelf capacity: 60 lbs.
- Total capacity: 200 lbs.
- Easy assembly with cam-lock fasteners

COMPACT REFRIGERATORS

Danby's large capacity, classic compact fridges offer plenty of additional refrigeration in a compact footprint. Suitable for offices, dens and workshops, this 4.3 cu. ft. model includes Danby's patented *Canstor*® beverage dispenser, full width freezer section and tall bottle storage.

- Large 4.3 cu. ft. capacity compact fridge
- Mechanical thermostat
- Make ice or store frozen items in the compact freezer section
- No hassle push button defrost
- Convenient *Canstor*® beverage dispensing system
- 2.5 wire shelves for maximum storage versatility
- Tall bottle storage - great for large soda bottles
- Reversible door swing for convenient left or right hand opening
- Integrated door handle
- Smooth back design
- 20 1/2" W x 21 1/16" D x 32 11/16" H
- Weight: 68.34 lbs.
- Available in White or Black with Stainless Steel

OASIS® WATER COOLERS

Oasis® water coolers are manufactured with a heavy gauge steel frame which provides durable and quiet operation. They feature a 5-year limited warranty on the sealed refrigeration system and most component parts. All waterways are constructed of lead free materials and HFC 134A is used as a refrigerant. No CFCs are used. All units are standard tan sandstone finish. Drinking water temperature is 50˚F/10˚C. Certified for sale in Canada by an accredited certification body.

OA061

OA063

WALL-MOUNTED COOLERS

These units come in standard or compact models. All units are shipped with complete instructions and wall mounting brackets. Units should be installed with the nozzle 36 inches from the floor.

VERSAFILLER™ WATER FOUNTAIN & BOTTLE FILLERS

Enjoy the best of both water options; refreshing fountain water and a bottle filler unit for refillable bottles. The *VersaFiller™* accomplishes both tasks with ease and simplicity, and puts your location at the top of the refillable bottle trend while making a bold statement about your concern for the environment.

The *VersaFiller™* is also designed for the future. The alcove and activation button contain *Freshield™*, which utilizes a silver-based antimicrobial compound. This is ideal for work-place settings, schools, university locations, and any public building.

The *VersaFiller™* unit is available in two configurations. The **ON557** (PWSBF) model can be retrofitted to existing **OA059** (P8AC) coolers as well as Elkay's EZ8 models (some installation is required to connect this unit to existing P8AC models) providing an instant upgrade to those products already in the field.

The **ON557** (PWSBF) is also designed for simplicity of installation, requiring only water tubing connection to the host (P8), with no required electrical connections or separate drains.

The *VersaFiller™* can be purchased as a complete top and bottom combination as well, **ON555** or **ON556**.

ON556

STANDARD FEATURES:

- Waterways are lead-free in materials and construction
- Heavy-duty galvanized steel frame bolts directly to the wall
- *Freshield™* antimicrobial compound
- Gauges: Panels: 22, frame: 16
- ADA compliant for adult or child when properly installed
- Certified to NSF/ANSI Standard 61, Annex G (AB1953)
- 5-year limited warranty

BRITA® HYDRATION STATION™

The *Brita® Hydration Station™* offers a convenient, touch-free alternative to bottled water, filling up reusable containers with healthier*, refreshing water. The unit conveniently mounts on to most wall surfaces and dispenses great-tasting, filtered water from standard tap lines.

Simple to use – Place a bottle beneath the nozzle and the *Brita® Hydration Station™* does the rest. Simply move your bottle in and up to fill, and down and out to turn off. The *Brita® Hydration Station™* turns itself off for a drip-free, spill-free experience. Touch-free, sensor-operated design allows the unit to be activated without physical contact by the user, assuring hygienic operation.

* Certified to reduce lead and cysts. Substances reduced may not be in all users' water.

ON548

ON551

FEATURES:

- **Beautiful Satin Finish** - aesthetically pleasing and modern design consisting of a 16-gauge type 304 brushed stainless steel back panel with a #4 satin finish and ABS front panel
- **Touch-Free, Sensor Operation** - simply place a bottle beneath the nozzle to dispense water; touch-free use assures hygienic operation
- **Filter Replacement Indicator Light** - the unit's front face features a filter reminder light; green is good, yellow indicates filter needs replacement soon, red indicates filter replacement is due
- **Simple to Maintain** - servicing the unit is simple with replacement filters utilizing a simple twist-on, twist-off replacement
- **30-Second Timeout** - 30-second timeout feature prevents unauthorized use and malicious activation
- **Lead-Free** - the *Brita® Hydration Station™* features certified lead-free materials, components, and construction meeting AB 1953 and NSF/ANSI 61
- **Certifications** - NSF/ANSI 61, NSF/ANSI 42, 53, AB1953, and CSA B483.1. Certified under IAPMO under the Drinking Fountain category
- **Advanced Filtration System** - the unit is certified to NSF/ANSI 42 and the only NSF/ANSI 53 drinking water system on the market, reducing lead, chlorine (taste/odor), and removes 99.99% of cysts
- **24-Hour Purge** - self-activated 24-hour purge guarantees fresh water supply by regularly flushing out water line
- **Chilled Water Option** - add the optional chiller to help reduce the water temperature
